PROJECTS

Laboratory furniture

We design furniture in 2D and 3D from your spaces and services (air, water, gas, power, steam, vacuum). Modules keep the same depth and height, so they can be relocated and extended without losing uniformity.

Features

- Computer-aided design in 2D and 3D
- Modules fully reusable when the layout changes
- Connection to every service line

Specifications

Model	Description	Dimensions
CARRO-UTILITARIO	Cart with two T-304 stainless shelves; 1" tubing with epoxy primer and black polyurethane finish; aluminium corners and 4" casters; 180 kg total capacity	41 × 80 × 91 cm

Each furniture project is quoted from a survey of your space.

Applications

- Teaching laboratories
- Quality-control laboratories
- Research

Specifications subject to change without notice. Request the current version with your quote.
